English B2 (Intermediate)

Education

Kazan petrochemical college 2019 – 2023

Specialization:

«Automation of technological processes and production»

About me:

I'm a back-end web developer. I improve my skills and expand them by learning new technologies. I have experience in creating CBV, using Python/Django, React/JS, HTML, CSS/SASS.

I devote my free time to programming, code tricks and walks around the city. I'm also learning how to program a PLC using the TIA Portal.

WORK EXPERIENCE

Freelance, back-end developer (2021, June)
